KURNOOL, ANDHRA PRADESH - 518002, INDIA

## OBJECTIVE

---

I am a versatile developer with expertise in Core Java and Advanced Java. Proficient in object-oriented principles and interface design, I deliver efficient and modular code. My front-end skills in HTML, CSS, and Bootstrap enable me to create responsive, user-friendly interfaces, bridging the gap between back-end functionality and front-end usability. Reliable and detail-oriented, I thrive in development teams looking for well-rounded technical expertise. I also possess good communication skills and good coding skills, which further enhance my ability to collaborate effectively and deliver high-quality solutions.
