BARIGALA VISWESH

Full Stack Developer | Java Developer | Frontend Developer (Fresher)
KURNOOL, ANDHRA PRADESH, INDIA

+91-9391649831   barigalaviswesh@gmail.com   linkedin.com   github.com

OBJECTIVE

Entry-level Full Stack Developer with strong fundamentals in Core Java, Advanced Java, and Web Development. Hands-on experience in building responsive, database-driven web applications using HTML, CSS, JavaScript, React, JSP, Servlets, JDBC, Spring Boot, and MySQL. Passionate about clean code, scalable backend systems, and user-focused UI design. Seeking an entry-level Software Developer / Full Stack Developer role

Technical Skills

Programming Languages: Core Java, JavaScript, TypeScript, Python (Basic)
Backend Technologies: Spring Boot, Java EE, Servlets, JSP, JDBC, REST APIs
Frontend Technologies: HTML5, CSS3, JavaScript, React.js
Mobile Development: React Native, Expo Router
Database: MySQL (CRUD, Joins, Constraints)
Tools & Platforms: Git, GitHub, Postman, VS Code, Eclipse
Core Concepts: OOPs, MVC Architecture, SDLC, Basic Data Structures

WORK EXPERIENCE

1Stop   Remote
Web Development Front-End Intern   Apr 2023 – Jun 2023

- Developed responsive web pages using HTML, CSS, and JavaScript with a focus on clean UI and usability.
- Implemented interactive components and optimized layouts for cross-device compatibility.
- Gained hands-on exposure to real-time front-end development practices.

EDUCATION

- Dr. K. V. Subba Reddy Institute of Technology, Kurnool, Andhra Pradesh   GPA: 6.99/10

  B. TECH – Computer Science and Engineering   Jul 2020 – Jun 2025

- Narayana Junior College, Kurnool, Andhra Pradesh   GPA: 8.04/10

  Higher Secondary School Certificate   Jul 2018 – Apr 2020

- Narayana English Medium School, Kurnool, Andhra Pradesh   GPA: 9.7/10

  Secondary Education   Mar 2018

PROJECTS

Food Delivery App - GitHub
Tech Stack: HTML, CSS, JavaScript, Java, JEE, Servlets, JSP, MySQL   Jun 2024 – Oct 2024

- Developed a full-stack food delivery web application with user authentication, restaurant listings, and order management.
- Designed responsive and user-friendly interfaces, improving usability across desktop and mobile devices.
- Implemented backend modules using Java, Servlets, JSP, and JDBC, ensuring secure data flow and modular architecture.
- Integrated MySQL database to manage users, orders, menus, and restaurant data efficiently.
- Followed MVC architecture to improve code maintainability and scalability.

Portfolio Website - GitHub

Tech Stack: HTML, CSS, JavaScript   Oct 2023 – Nov 2023

- Built a responsive personal portfolio website featuring dynamic section navigation, typing animation
- (Typed.js), and a customizable theme switcher with light/dark modes.
- Designed a multi-section layout including About, Skills, Education, Experience, Services, Portfolio, and Contact.
- Created a responsive contact form with styled inputs, focusing on UI/UX principles and cross-device compatibility.

Wanderlust Explorer – React Native Travel App - GitHub

React Native | TypeScript | Expo Router

- Built a **cross-platform React Native travel app** to explore destinations by category.
- Implemented **reusable UI components** with **TypeScript** for scalable development.
- Added **dynamic filtering and smooth navigation** using Expo Router.
- Improved performance and UX with **animations and optimized list rendering**.

.

TRAINING & INTERNSHIPS

Tap Academy

Full Stack Web Development Training   May 2024 – Nov 2024

- Completed intensive training in Core Java, JDBC, JSP, Servlets, Spring Boot, HTML, CSS, JavaScript, and React.
- Built full-stack applications integrating front-end interfaces with back-end logic and databases.
- Strengthened problem-solving and coding skills through project-based learning.
